Dependent Abdulmutallab's Response to Motion In Limine to admit Evidence

Dependent Abdulmutallab rejects the use of the video, magazine and expert witnesses by the government because as Non-Muslims, the government and its expert witnesses cannot understand the meaning of the video and magazine.

The government and its witnesses do not know how it is produced, why it is produced and what it means because they do not understand the Quran, which is the basis of both the video and magazine.
